ESTONIA

Mr President,

Estonia would like to thank you, the Chairperson of Main Committee II Ambassador Danon and your teams for the work you've done during the past one and a half weeks. We took the floor on the first day of the review conference to express our appreciation over the evolvement of the text during the past year. We take the floor today with the same message. Estonia believes that after 10 days of hard work and compromises, we've reached a solution that, while not perfect for everyone, still addresses the concerns of all sides. We have before us a protocol that is complimentary to and compatible with the CCM and would undoubtedly bring about a tangible humanitarian effect. We therefore give our full support to the protocol.

Thank you Mr President
